

Company	Product	Size	Shape	Material	Price	Special Features
AlphaMed Inc. (Wauwatosa, Wisn.) 866-734-2020 www.alphamedco.com)	Quintess Punctum Plugs	0.3mm, 0.5mm, 0.7mm, 0.9mm	Cap is a few microns thick; tube section features a thin wall diameter; anchor is designed with a slight taper.	High performance liquid silicon rubber elastomer.	\$45 per sterile kit, \$270 per bulk pack.	Patented design featuring reservoir indentions reduces foreign body sensation; simplified sizing; indents correspond to plug size.
Angiotech (formerly Surgical Specialties Corporation) (Reading, Pa.) 800-523-3332; 610-404-1000 www.Angiotech.com	UltraPlug Silicone Punctal Plugs	0.4mm, 0.5mm, 0.6mm, 0.7mm, and 0.8mm	Low profile cap; single mold design.	Silicone	\$55/box of two	Individually packaged and preloaded on a sterile, disposable inserter; low profile cap virtually eliminates foreign body sensation; 30 day pop out guarantee.
	UltraPlug Extended Wear Synthetic Absorbable Punctal Plugs	0.2mm, 0.3mm, 0.4mm in a 1.6mm or 2.0mm length	Straight	E-Caprolactone-L-Lactide Copolymer (PCL).	\$185/box of 10 cards with two plugs per card.	Made with a PCL synthetic material that is absorbed within 2-6 months; ideal for seasonal allergy patients; contact lens patients, post-op dry eye after LASIK.
	UltraPlug Collagen Absorbable Punctal Plugs	0.2mm, 0.3mm, 0.4mm in a 2.0mm length.	Straight	Collagen	\$55/box of 60 in one size; \$60/box of 72 in a variety pack; call for volume discounts.	Made from premium collagen and packaged 6 plugs to a card; available in a variety pack containing all sizes.
CYNACON/OCuSOFT 800-233-5469 ocusoft.com	Quintess Punctal Occluder Sterile Preloaded Pair and Non-Sterile Bulk Pack (10 pairs)	X-small: 0.3mm; small: 0.5mm; medium: 0.7mm; large: 0.9mm.	Flat cap; straight thin tube; tapered anchor for ease of insertion.	Silicone	Sterile preloaded: \$45; non-sterile bulk pack \$270.	Manufactured from a proprietary liquid silicone rubber (LSR); patented micro-reservoir indentions reduce foreign body sensation; tube section has a thin wall diameter.
Delta Life Science (Memphis, Tenn.) 866-381-5725; 901-398-5151 www.deltalifescience.com	ComforTear Punctum Plugs; ComforTear FloPlug	PediPlug 0.5mm: x-small: 0.6mm; small: 0.7mm; medium 0.8mm; large 0.9mm; sterile and non-sterile offerings.	Punctum plug with anchor and cap design.	100% LSR elastomer; no additives.	\$56/box of two.	Insertion guides to facilitate introduction; micro beams provide additional strength and integrity for insertion, visual size FloPlug with cannulated design.
EagleVision Inc. (Memphis, Tenn.) 901-380-7000 www.eaglevis.com	SuperEagle	Small: 0.4-0.65mm; medium: 0.6-0.85mm; large: 0.8mm and larger.	Low-profile rime; soft, low durometer silicone for super patient comfort; patented tapered shaft pivoting wide-flex nose for super retention.	Silicone	1-9: \$30 each; 10-19: \$27.50 each; 20-29: \$25 each; 30-39: \$24 each; 40+: \$23 each.	Product comes with a single sterile silicone plug per pack; supplied reloaded; on a disposable inserter/dilator; color coded according to size; available in three sizes.
	SuperFlex	0.3mm, 0.4mm, 0.5mm, 0.6mm, 0.7mm, 0.8mm, 0.9mm, 1mm, and 1.1mm.	Tapered shaft design and contouring traction ribs along the "body" of the plug; includes the thinnest rim for patient comfort.	Silicone	1-4: \$37.50 each; 5-8: \$36 each; 9-19: \$34.50 each; 20+: \$32.50 each; (0.3mm, 0.9mm, 1.0mm, and 1.1mm) \$39.50 each.	Larger nose; comes with a single sterile silicone plug per pack; supplied preloaded on a disposable inserter/dilator; color coded according to size.
	DuraPlug Extended Temporary Canalicular Inserts	0.2mm, 0.3mm, 0.4mm diameter.	N/A	PCL	\$6-\$7/plug.	PCL temporary canalicular inserts effective for 90-180 days; inserted with forceps.
	Flow Controller	0.5mm, 0.6mm, 0.7mm, and 0.8mm.	Tapered shaft designed to create a vector force, keeping it snugly in the punctal opening	Silicone	1-4: \$37.50 each; 5-8: \$36 each; 9-19: \$34.50 each; 20+: \$32.50 each.	Product comes with a single sterile silicone flow controller per single pack; supplied preloaded on a disposable inserter/dilator.
FCI Ophthalmics (Marshfield Hills, Mass.) 800-932-4202 www.fci-ophthalmics.com	FCI SnugPlug	One size fits all.	Low profile collarette, neck and bulb for secure retention	Silicone	1-9 pairs: \$70; 10-19 pair: \$60; 20+ pair: \$50.	Packaged preloaded in a stretched position for easy insertion; when released from inserter, plug returns to its natural shape for a comfortable and snug fit.
	FCI Ready-Set Punctal Plugs	Slim Mini: 0.4mm; Slim Petite: 0.5mm; micro: 0.6mm; mini: 0.7mm; small: 0.8mm; medium: 0.9mm; large: 1.0mm.	Slim Plugs and original slanted collar plugs.	Silicone	Sterile preloaded: 1-9 pair: \$60; 10-19 pair: \$50; 20+ pair: \$40; non-sterile easy-load: \$250/box of 24 plugs, single sizes or variety.	Slim Mini and Slim Petite plugs have slightly smaller bulb for easier insertion; micro-large plugs have slanted collar that hugs lid line.
	FCI Perforated Plugs	PVP Mini 0.7mm; PVP Medium 0.9mm.	Slanted collarettes; large channel through plug.	Silicone	Packaged two preloaded and sterile plugs per box; \$84/box of two.	Used to treat punctal stenosis or to allow limited tear drainage; coated with special PVP coating that prevents build-up of debris inside channel.
	FCI Collagen Implants	0.2mm, 0.3mm, 0.4mm, variety pack or trial pack.	N/A	Collagen	\$60/box of 72 implants, Trial Pack \$18/box of 18 implants.	Collagen plugs provide short term occlusion lasting 5-7 days; insertion with jeweler's forceps.
	ProLong, long term absorbable plugs	0.3mm, 0.4mm, 0.5mm, variety pack.	Cylindrical	Absorbable copolymer of glycolic and trimethylene carbonate.	\$150/box of 20 implants.	ProLong plugs provide long term occlusion lasting up to 3 or more months; insertion with jeweler's forceps.
Lacrimedics (Eastsound, Wash.) 800-367-8327 www.lacrimedics.com	Lacrimon Efficiency Test with Collagen Plugs	0.3mm, 0.4mm, 0.5mm.	Like a small cylinder, 2mm length.	BSE-free collagen; forceps required for insertion.	\$50-\$59/box, 60 plugs per box; forceps required for insertion.	Short-term occlusion therapy; plugs dissolve in 4-7 days; used to evaluate dry eye and potential benefits of longer-term occlusion therapy.
	Dissolvable VisiPlug Lacrimon Plugs	0.4mm, 0.5mm diameters.	Like small cylinder, 2mm length.	Synthetic polydioxanone	\$18-\$25/box, 2 plugs each; forceps required for insertion.	Medium-term occlusion therapy; plugs dissolve in approximately 180 days; patented technology makes this intracanalicular plug uniquely visible post-insertion using transillumination of the eyelid; CE marked.
	VisiPlug Lacrimon Plugs - Opaque Herrick Lacrimon Plug	0.3mm, 0.5mm, 0.7mm diameters; individually sterile, pre-mounted on a disposable tool.	Shaped like a small golf tee; for placement beneath the punctum (within the horizontal canalculus).	Non-dissolvable silicone	\$39-\$75/box, contains two plugs; academic/government prices available.	Long-term occlusion therapy; plugs provide partial occlusion, patented technology makes this intracanalicular plug uniquely visible post-insertion using transillumination of the eyelid; CE marked.
Oasis Medical (Glendora, Calif.) 800-528-9786; 909-305-5400 www.oasismedical.com	Form Fit Hydrogel Plug	0.3mm diameter.	Cylinder	Hydrogel	\$25-\$30/plug in boxed of 2 or 10 plugs per box.	Long-term intracanalicular plug of hydrogel; expands on contact with tear film; fills the punctal cavity in less than 10 minutes; preloaded in a disposable inserter.
	SOFT PLUG Silicone	0.4mm, 0.5mm, 0.6mm, 0.7mm and 0.8mm diameters.	Punctum plug with cap and anchor system.	Silicone	Quantity pricing available as low as \$12.50/plug.	Long-term silicone plug preloaded on a disposable inserter, packaged individually in a 2-pack or 6-pack box; low profile cap and softer silicone for patient comfort.
	SOFT PLUG Extended Duration Absorbable	0.2mm, 0.3mm, 0.4mm and 0.5mm diameter x 2.0mm long	Cylinder	Absorbable synthetic	\$5/plug	Absorbable, non-collagen; intracanalicular plug last up to 3 months; ideal for surgically induced dry eye; packaged in boxed of 10 or 20 pair.
	SOFT PLUG Collagen Intracanalicular Plug	0.2mm, 0.3mm and 0.4mm diameter x 2.0mm long.	Cylinder	Collagen	\$1 plug	Temporary intracanalicular plug for diagnostic use; lasts 2 to 5 days; polished tip for easy insertion; packaged 60 plugs per box.
Odyssey Medical, Inc. (Memphis, Tenn.) 888-905-7770 www.odysseymed.com	Parasol Punctal Occluder	X-small: 0.25mm to 0.35mm; small: 0.35mm to 0.65mm; medium: 0.6mm-0.85mm; large: 0.9mm+	Parasol features straight shaft with collapsible, hollow nose, low-profile dome for ultimate patient comfort.	Implant Grade Silicone	Sterile preloaded: 1-6 pair: \$85; 7-15 pair: \$80; 16-25 pair: \$70; 26+ pair: \$55; sterile Quick-load: \$300/box of eight pair; non-sterile bulk: \$300/box of ten pair.	Hollow nose collapses upon insertion; small, medium sizes should accommodate 95% of patients; extra small, large sizes available; dome of Parasol is visible after insertion.
	EXTEND (Extend Absorbable Synthetic Implant)	0.3mm, 0.4mm, 0.5mm.	N/A	Synthetic Collagen	Same sized implants: \$175/box of 20; variety sized: \$190/box of 20.	Extend punctal implants are designed for temporary occlusion up to three months; plugs are inserted with standard jeweler's forceps and are not visible after insertion.
	Collagen	0.2mm, 0.3mm, 0.4mm.	N/A	Collagen	\$54/box of 60.	Collagen plugs provide occlusion for 7-10 days for diagnostic use; the plugs are inserted with standard jeweler's forceps.
U.S. IOL (Lexington, Ky.) 800-354-7848 www.usiol.com	Occu-Flo punctal plugs	0.4mm, 0.5mm, 0.6mm, 0.7mm	Smooth, polished finish; solid nose for easy insertion.	Silicone	\$35/pair; sterile preloaded.	Polished surface for immediate patient relief; preloaded on disposable injector/dilator.
